**Withdrawal Of Ethics Complaint  
Against Representative Brian Kennedy.**

El Paso, Texas- File. Accuse. Delay. Accuse. Withdraw. Accuse. This is classic abuse of a system meant to resolve legitimate ethical issues. Untrue accusations were originally made in a complaint filed on July 5th. The complainant then requested the hearings be delayed, no doubt, to increase exposure. Then, at the last minute before the rescheduled hearing, the complaint was withdrawn while adding even more accusations. The accuser never had to face the accused whose integrity has been assaulted. It's a waste of taxpayer money and takes time away from those with real grievances waiting resolution.

I am committed to continue to do my job, calling out corrupt actions, fighting waste, and acting on facts.

Brian P. Kennedy
